POP PLANT

Also available for baskets!

Varieties shown are for illustration only.
Actual varieties used will vary depending on availability.

Across the Universe

Sometimes we don't want to make choices. All the breakfast options sound delish, all the movies at the cinema look good and all the flowers are pretty. Say hello to the planter combo that gives you a little bit of everything – all your favourite colours, all beautifully blended. Now go play the Beatles and eat that French toast with hollandaise and muesli on the side.
