Breakfast at Tiffany's

If you sip your Earl Grey with your pinkie out and wear your mother's pearls to fetch the newspaper, then this is the planter combo for you. And if you prefer instant coffee in a soup mug and read your news on Twitter, then this is still the planter combo for you. Various pink, lavender and violet shades combine to create a beautifully sophisticated array, and the planter will add a touch of elegance to any garden room. Because anyone can be Audrey Hepburn when you've got good taste in flowers!
