POP PLANT

Also available for containers!

Varieties shown are for illustration only.
Actual varieties used will vary depending on availability.

# White Heat

*We see you. Standing there in your stylish monotone outfit, sipping your sugar-free beverage, living your best life as you shop without touching anything and plan a balanced dinner. (All at the same time). You're an efficient minimalist with a psychopathic side and you'd never think of adding colour to your Scandi-chic home – which is why this blend of white flowers and grey foliage is your dream come true.*

*P.S. We were joking about your psychopathic side. Unless you do have one. Just watch the movie and you'll get it, okay?*
